BESSEY® Tools North America Woodworking: Pipe Clamps

Woodworking: Pipe Clamps

Simply better.

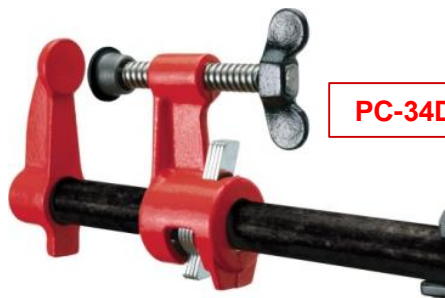

PC12-2, PC34-2 & PC34-DR

- ❑ PC12-2 made for use with 1/2" pipe
- ❑ PC34-2 & PC34-DR made for use with 3/4" pipe

PC12-2

PC34-2

PC-34DR on 3/4" black pipe

Special notes

1. Naming convention for standard black pipe is based on the nominal ID.
2. Pipe not included.

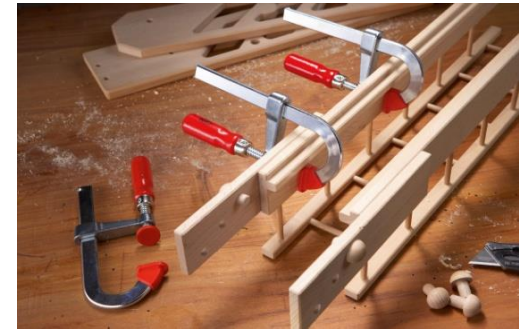

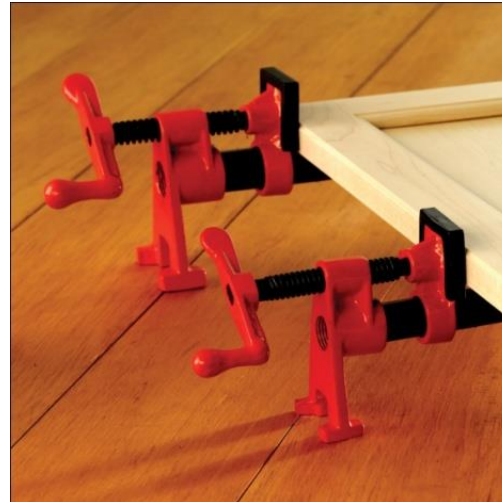

Woodworking: Pipe Clamps

Simply better.

Pipe clamp, "H" style, BPC

- ❑ The "H" shaped foot assembly stabilizes the clamp in two dimensions giving dual-axis stability to the work piece
- ❑ Extra high base provides hand clearance from the work surface
- ❑ Large cast jaws with soft protective caps
- ❑ BPC-H12 for 1/2" pipe
- ❑ BPC-H34 for 3/4" pipe

Special notes

1. Naming convention for standard black pipe is based on the nominal ID.
2. Pipe not included.

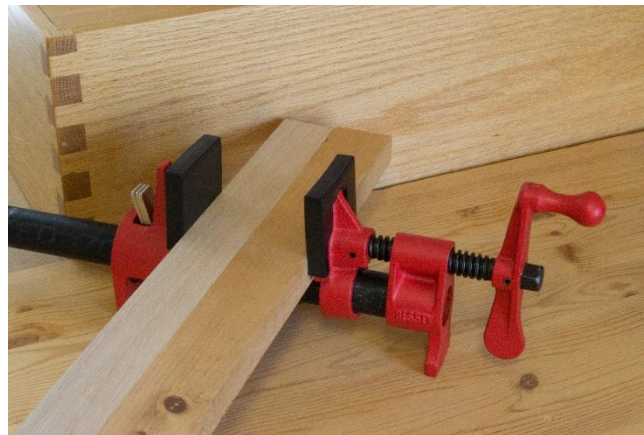

Woodworking: Pipe Clamps

Simply better.

Pipe clamp, traditional style, PC-2

- ❑ High base improves clearance from the work surface
- ❑ Economical alternative to the bar clamp
- ❑ Large clamping surface
- ❑ ACME threaded screw
- ❑ Hex head on spindle
- ❑ PC34-2 for ¾" pipe
- ❑ PC12-2 for ½" pipe

Special notes

1. Naming convention for standard black pipe is based on the nominal ID.
2. Pipe not included

Woodworking: Pipe Clamps

Simply better.

Deep reach pipe clamp, traditional style, PC-34DR

- ❑ Traditional pipe clamp with extra deep reach
- ❑ ACME threaded spindle
- ❑ PC-34DR for ¾" pipe

Special notes

1. Naming convention for standard black pipe is based on the nominal ID.
2. Pipe not included
