

BESSEY® Product Training

BESSEY® Tools North America
One-handed Bar Clamps: PG Series

Heavy duty one-handed bar clamps: PG Series

Simply better.

❑ PowerGrip features:

- Capacities available: 12" & 24"
- Throat depth: 4"
- Clamping Force rating: 1000 lbs

❑ Dual action pump

- Also unique to BESSEY is the lever. It operates in two directions; therefore, you can be holding the clamp by the spindle or the handle that encloses the steel rail & still be able to snug the clamp to the work piece.

❑ Unique two stage design

- Get 100 to 200 lbs of force by using the pump lever
- Increase clamping force up to 1000 lbs by turning the spindle with 2K handle

❑ Heavy duty German design

- made with high quality BESSEY® steel

Simply better.

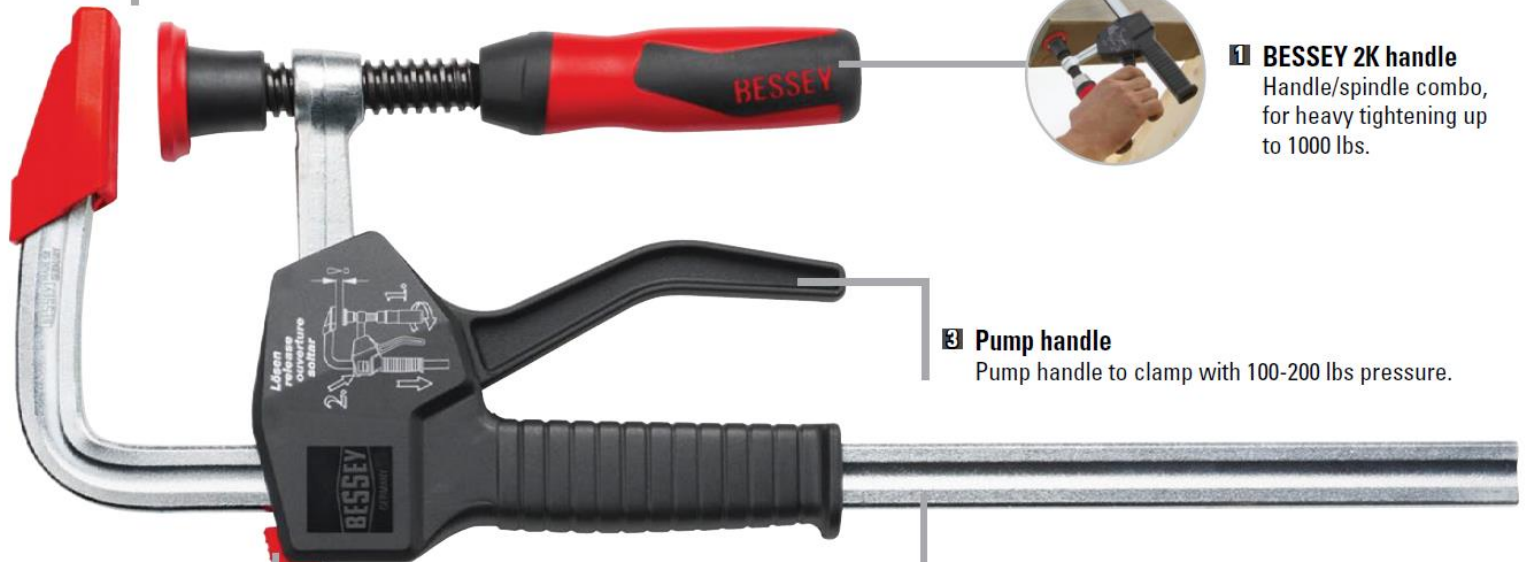

2 Soft pressure caps

Removable plastic caps provide a non-marring, soft touch for use with wood and finished metal surfaces.

1 BESSEY 2K handle

Handle/spindle combo, for heavy tightening up to 1000 lbs.

3 Pump handle

Pump handle to clamp with 100-200 lbs pressure.

4 Steel bar

Fixed arm and pressure plate drawn and tempered from a single piece of high quality BESSEY steel.

5 Easy slide button

Easy slide button for positioning.
