

Industrial snips

Multi purpose cutters

Simply better.

MultiSnips, D48A

Snips/shears/scissors tend to be designed to fall into 1 of 3 broad use categories; sheet metal (tin snips), fabric shears & lastly paper cutting. The BESSEY® the 48A MultiSnip has no specialty, thus creating a new 4th category - the multipurpose snip. The 48A's Stainless steel blades work well on a wide variety of materials. Light weight & pocket sized. It is a great tool to have close at hand both at work & at home.

1 Stainless steel blade

Increased durability and cutting results. Cuts both thin metal sheets as well as a variety of soft materials such as paper, fabrics and cardboard.

2 Offset blades

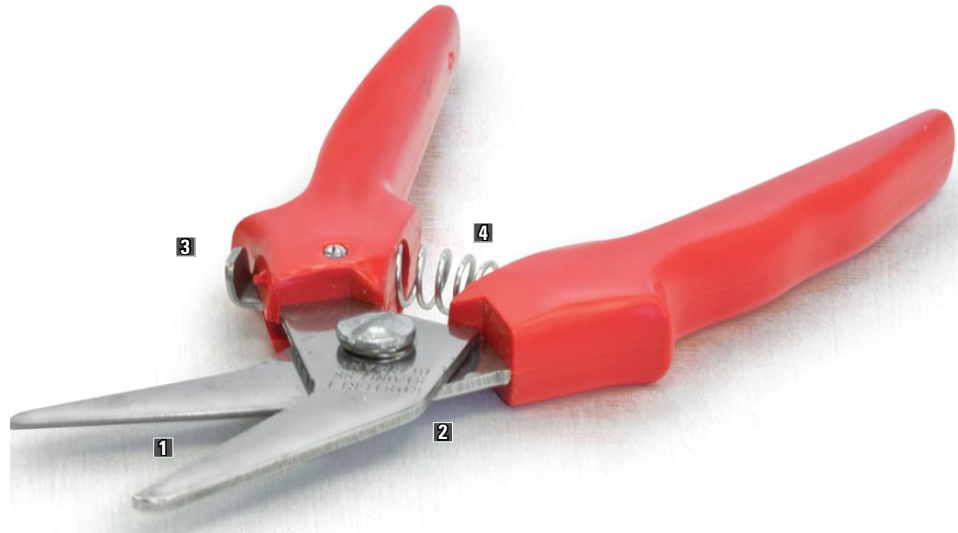

The practical locking mechanism allows for opening and closing with one hand while limiting the maximum opening of the snip.

3 Thumb lock

Provides easy locking for increased safety.

4 Spring leverage

Spring opens cutter automatically, improving productivity while reducing hand fatigue.

MultiSnips

- Made for everyday light duty use.
- Stainless steel blade.
- Spring opens cutter automatically.
- Features a thumb operated lock.

	Overall Length	Blade Length	Approx. Weight
Straight Blade, D47, D48			
D47	5 3/4"	1 1/4"	0.13 lbs
D48	7 1/2"	1 5/8"	0.25 lbs
Offset Blade, D48A			
D48A	7 3/8"	1 3/8"	0.25 lbs

Cable cutter, D49

- Used for cutting multi-core cable with diameters up to 10 mm (3/8").
- Stainless steel blade.

	Overall Length	Blade Length	Approx. Weight
D49	6 5/8"	1"	0.25 lbs

Industrial snips

Multi purpose cutters

Simply better.

Combinox, D50

These versatile multi-purpose snips are equally at home in the toolbox, kitchen gadget drawer or garden shed. The handles are plastic with a soft cushion insert for comfort and to prevent slipping.

1 Stainless steel blade

Increased durability and cutting results. Notched for wire stripping, these cut thin metal sheets, cable, and a wide range of material.

2 Thumb lock

Provides easy locking for increased safety.

3 Spring leverage

Spring opens cutter automatically, improving productivity while reducing hand fatigue.

4 Ergonomic handle

Ergonomic handle with soft insert.

Combinox, D50

- Stainless steel blade cuts a wide range of material, and is notched for wire stripping.
- The spring opens the cutter automatically.
- Thumb operated lock, ergonomic handle with soft-insert.

	Overall Length	Blade Length	Approx. Weight
