BESSEY Group – The History

1889
Foundation of a bright steel drawing mill in Stuttgart by Max Bessey

1923
Foundation of the Ernst Diener shears factory. Initially only Berlin pattern snips are produced

1936
Patent for a new malleable cast iron screw clamp
Manufacture of clamping tools begins

1944
Construction of the current headquarters in Bietigheim

1979
Takeover of shears factory Ernst DIENER thereby expanding the BESSEY product range with ERDI snips
BESSEY Group – The History

- **1984**: Merging of the tools and precision steel works at the Bietigheim location
- **2003**: Takeover of distribution partner in the strategically important North American market
- **2004**: Takeover of clamping tool brand GROSS STABIL as part of the global growth strategy
- **2007**: Integration GROSS STABIL TOOL into BESSEY Tool in order to increase synergy effects
- **2019**: Foundation of BESSEY Präzisionsstahl and expansion of the storage and production facilities

130-year anniversary
"One, who stops improving himself, has already ceased to be good."
(Philip Rosenthal, entrepreneur, born 1916)

This is the guiding principle by which we deal and work every day.

It is the advantage created by ideas and quality that make the BESSEY brand unique.
BESSEY Group – The Organisation

BESSEY Group

BESSEY Praezisionsstahl Vertriebsgesellschaft mbH

BESSEY Praezisionsstahl GmbH

BESSEY Tool GmbH & Co. KG
