## Woodworking 2023-2024

### Parallel Clamp, K Body

- Parallel clamping with nominal 1700 lbs of force
- Capacities from 12" to 98"
- Cold drawn profiled steel rail
- Easy to grip handle
- Precise and powerful clamping

### Parallel Clamp, Vario K Body

- All the precision and power of REVO, plus more
- A complete parallel clamp system – mix and match
- Add jaws with handles, moveable fixed jaws
- Connect clamps together to make extra-long clamps
- Add accessories to do angles or create fixtures

### Parallel Clamp, REVO™ JR

- The mid-sized version of what makes the REVO great
- Parallel clamping with nominal 900 lbs of force
- Capacities from 12" to 50"
- Traditional wood handle
- Competitive price point

### Bar Clamp, TG series, 2K handle

- The original professional bar clamp
- Steel rail from Germany
- Capacities from 6" to 79"
- Malleable cast jaws, non-slip
- Two component handle for easy grip

### Bar Clamp, TG series, Wood handle

- The original professional bar clamp
- Steel rail from Germany
- Capacities from 4" to 36"
- Malleable cast jaws, non-slip
- Traditional wooden handle

## Woodworking 2023-2024

### Clutch Style Bar Clamp (enhanced), TGC series

- NEW enhanced clutch style bar clamp
- Heavier, wider, thicker bar stock for a stronger rail
- Powder coated cast jaws, non-slip
- Capacities from 6" to 36", 2.5" throat depth
- Clamping pressure up to 700 lbs. 15% stronger than the industry standard

### GearKlamp, GK

- Works "BIG" in a small space
- Handle is integrated into the rail
- Ideal for hard to reach clamping applications
- Capacities from 6" to 24"
- Nominal clamping force of 450 lbs

### One-hand Clamp, EZS series

- One handed clamping or spreading
- Large, non-marring pressure caps
- Nominal clamping force of 445 lbs
- Clamping capacities from 6" to 36"
- Spreading capacities from 6½" to 43½"

### One-hand 360° rotating handle clamp, EHKL360

- Versatile rotating handle
- Clamping in tight spaces
- Nominal clamping force of 300 lbs
- Clamping capacities from 6" to 36"
- Spreading capacities from 7¾" to 41¾"

### One-hand, DuoKlamp

- One handed clamping or spreading
- Large surface area for clamping
- Nominal clamping force of 260 lbs
- Clamping capacities from 6" to 24"
- Spreading capacities from 2¾" to 26¾"

## Woodworking 2023-2024

### One-hand Clamp, PG series

- One handed clamping
- Large surface area for clamping
- Rated at 1000 lbs of clamping force
- Capacities of 12" and 24"
- All steel rail, professional grade

### EHK Trigger Clamp

- One handed clamping or spreading
- Large, non-marring pressure caps
- 40, 100, 300 & 600 lb clamp force selections
- Clamping capacities from 4½" to 50"
- Spreading capacities from 3" to 56"

### Clutch Clamp, GSCC series

- Clutch style bar clamp, 2.5" and 3.5" throat depth
- Competitively priced DIY bar clamp
- Non-marring plastic caps
- Easy to grip 2K handle
- Capacities from 6" to 36"

### Clutch Clamp, DHBC series

- Double headed clutch style bar clamp
- Competitively priced DIY bar clamp
- Non-marring plastic caps
- Easy to grip, wood handle
- Capacities from 12" to 36"

### Strap Clamp, VAS series

- Professional grade strap clamp
- Up to 23 feet of reinforced strapping
- Integrated coiling mechanism
- Practical vario corners
- Easy to grip, 2 component handle

## Woodworking 2023-2024

### Angle Clamp, WS-3+2K-CB

- 90 degree clamping
- For clamping angles and miters or butt joints
- Sturdy die-cast frames
- Variable jaws allow for clamping flexibility
- Easy to grip, 2 component handle

### Angle and Miter Clamps, WS-3+2K and WS-1

- 90 degree clamping
- For clamping angles and miters or butt joints
- Sturdy die-cast frames
- Variable jaws allow for clamping flexibility
- Mounting holes for optional fixing to work surface

### Lever Clamp, KliKlump®

- Light duty lever clamp
- Sturdy magnesium arm
- Vibration resistant lever mechanism
- Easy release mechanism
- Five times (5x) faster than a bar clamp

### Pipe Clamp, PC34-2 / PC12-2 series

- Traditionally styled pipe clamp
- ½" and ¾" versions available
- Extra high base to save knuckles
- Smooth ACME spindle
- Broad foot assembly for balance

### Pipe Clamp, BPC-H34 / BPC-H12 series

- H Series styled pipe clamp
- ½" and ¾" versions available
- Extra high, 2 footed based to save knuckles
- Smooth ACME spindle
- Broad foot assembly for balance

## Woodworking 2023-2024

### Variable Spring Clamp, XV5-100

- Variable spring clamps from BESSEY
- Variable pressure and range of opening
- Ergonomic, 2 component handles
- Soft, pivoting, non-marring tips
- One of a broad series of plastic spring clamps

### Variable Spring Clamp, XV5-170

- Variable double jaw spring clamp
- Variable pressure and one-hand use
- Ergonomic, 2 component handles
- Soft, pivoting, non-marring tips
- One of a broad series of plastic spring clamps

### Ratcheting Spring Clamp, XCRG

- Ratcheting spring clamps
- Heavy duty resin construction
- Rapid action for quick set up
- Large opening for quick set up
- Quick release mechanism

### Steel Spring Clamp, XM series

- Sizes available are 1, 2, 3 and 4 In
- Available ; spring clamps with tips and handles
- Available; spring clamps with no tips or handles
- Available; black spring clamps with tips and handles
- Heavy duty spring for quick set up
