

One-handed table clamps

EZR-SET

BESSEY®'s EZR-SET, one-handed clamp innovation, is designed with purpose and possibilities. Created to work with track saw guides (slots/grooves, 12 x 6.5 mm to 12 x 8mm from Festool, Protool, Metabo, Makita, Hitachi/Hikoki and DeWalt), this clamp does so much more!

No tools are required to quickly transform and adapt to its numerous applications including a unique step-over solution.

1 User friendly technology

The easy to use release mechanism can quickly convert from clamping to spreading without tools simply by using a push button release.

2 Robust construction

Ergonomically shaped composite handle with trigger lever, allows a powerful grip. Enclosed plastic housing is protected from dust and chips. Profiled rail for extra stability.

3 Soft Touch pads with pattern

Cross prism design integrated in the plastic caps optimize material protection and allow fastening of round, pointed and angular pieces.

One-handed table clamps, EZR-SET

One handed clamping designed for fastening to track tables. Use with adaptor for step over capabilities. Transition from clamping and spreading made easy with quick push of a dial.

Contains 2 pieces.

	Clamping Capacity	Throat Depth	Clamping Force	Spreading	Approx. Weight
EZR-SET	6"	2 3/8"	100 lbs	4 3/4" - 12"	1.37 lbs

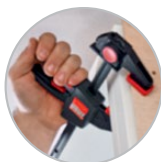

Step-over clamping flexibility

Use the unique adaptor (2 Inch) to enable step-over work by inserting it into the upper or lower sections.

Converts to a spreader
